SECTION "UAVS AND UAV COUNTERMEASURES." AT SECURIKA MOSCOW 2025

ОРГАНИЗАТОР
ORGANISER

RUSSIAN MARKET FOR UNMANNED AERIAL VEHICLES

The total volume of the Russian drone market in 2023 totalled more than RUB 8 billion. Such data was presented at SPIEF by Rostelecom.

According to the estimates of Rostelecom experts, if the current growth rate (+60%) is maintained annually, in 2024 the domestic UAV market will amount to about 13 billion rubles, and by 2028 it will reach RUB 81 billion.

Every year, drones are increasingly used for business purposes. About 40% of projects where UAVs are used are related to remote monitoring, about the same amount of security and another 10 per cent for logistics functions. UAVs are actively used to ensure security at real estate projects and to monitor construction progress, in the agricultural and oil and gas sectors, to monitor natural fires and natural disasters, to ensure sustainable communication and delivery of goods in hard-to-reach areas.

The unmanned aerial vehicle (UAV) defence systems market is also experiencing significant growth and is expected to continue to expand. Considering the current challenges, this segment comprising of electronic warfare, mobile shooters, nets, and capes is poised to grow at a minimum by the end of 2024 by 40-50%. Demand is forecast to increase across a variety of sectors, including critical infrastructure protection, industry and public safety.

FIND CUSTOMERS AT SECURIKA MOSCOW, RUSSIA'S LEADING SECURITY EXHIBITION!

SECTION MEMBERS "UAVS AND UAV COUNTERMEASURES."

The following companies took part in the section "UAVs and methods of combating UAVs" for the first time: Prime Radar Technologies, YUMIRS, FGUP "Russian Broadcasting and Alerting Networks", Shvabe Holding, "ESTER Solutions", LLC "Dagnostika M", "Free Cooperation Network", "STILSOFT", "Spetslab", "Special Control Technologies".

Review of "Prime Radar Technologies"

SEMEN CHECHERSKY

General Director, Prime Radar Technologies

"We have previously been visitors to this exhibition. This year we took part with our own stand. The equipment as you can see is aimed at detection and suppression of UAVs, which is a particularly popular topic nowadays. The exhibition allows us to realise our marketing potential to the greatest extent. The customer-orientation here is maximum. The audience is professional and focused on the security market."

FIND CUSTOMERS

AT RUSSIA'S LARGEST SECURITY EXHIBITION

Participation in Securika Moscow is an excellent opportunity to get acquainted with the Russian market of security and fire protection equipment and to find new customers and partners

UAVS AND UAV COUNTERMEASURES

ON THE AGENDA OF THE SECURIKA MOSCOW 2024 BUSINESS PROGRAMME

SESSION "BPLA - HOW TO DETECT AND HOW TO FIGHT?"

Combating drones, or unmanned aerial vehicles (UAVs), has become an important challenge in light of their increasing prevalence and potential use for espionage, terrorist attacks, or lawbreaking.

- How do you protect yourself from them?
- What detection and suppression methods are available?
- How to integrate the existing enterprise security system with UAV protection?

Co-Organiser:

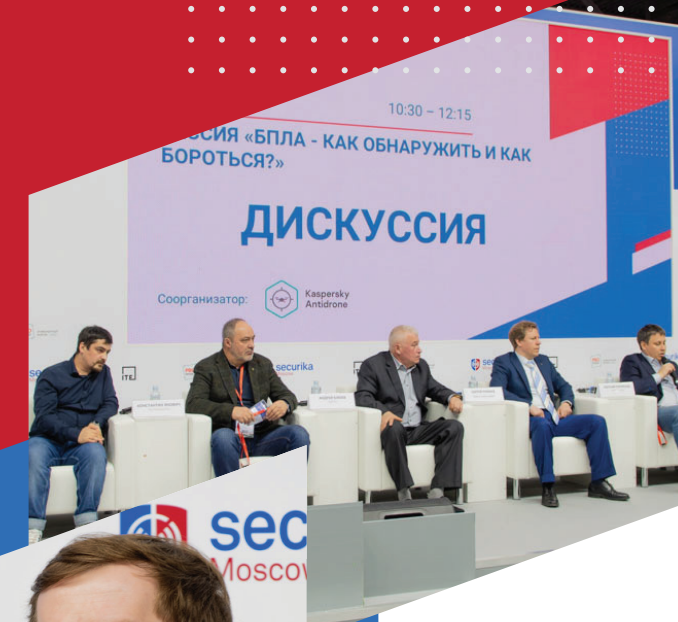

Kaspersky
Antidrone

Moderator: Vladimir Kleshnin, Director of Unmanned Technologies Business Development, Kaspersky Antidrone

The programme of business events Securika Moscow 2025 is taking shape.

We invite experts to co-operate with us.

For more information please contact the exhibition management: securika@ite.group

FIND OUT THE TERMS OF PARTICIPATION

BY BECOMING A MEMBER OF SECURIKA MOSCOW, YOU WILL RECEIVE SPECIFIC BENEFITS

Expand the geography of sales. Visitors to the exhibition come from 81 regions of Russia and 22 countries of the world. In addition, the exhibition is visited by representatives of all EAEU member countries.

Present equipment and technologies in the thematic section "UAVs and UAV countermeasures". More than 3000 visitors were interested in the products presented in the section.

Meet thousands of industry end customers. You will be able to negotiate with 3,331 end customers from different industries. An important fact: 32% of them estimate annual the volume of purchases in the company in the amount of 20 million roubles and more.

Build business contacts directly with company executives. 93% of professionals attending the show influence product purchasing decisions, and 64% hold senior management positions.

Get specific feedback directly from product customers to refine and improve your offering to meet customer requirements.

140
contacts

Average number of received during the days of the exhibition (based on the results of the survey of participants 2024). Under normal business conditions, this will take more than one and a half months.
